### AN OBJECT LESSON. In a Restaurant,

in a Restaurant,

A physician puts the query: Have you never noticed in any large restaurant at lurch or dinner time the large number of hearty, vigorous fid men at the tablesmen whose ages run from sizty to eighty years; many of them bald and all perhaps gray, but none of them feeble or senile?

Perhaps the speciagle is so common as

haps gray, but none of Liem resolutes senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are cating, you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of now fangled health foods; on the contrary, they seem to prefer a juley roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food, and not upon dieting and an endeavor to live upon bran crackers.

### Blood Poison

Blood poison, hereditary or contracted, pollutes the system with a poison that, unarrested, effects disastrous ravages throughout the human anatomy. Soon ulcers form in the mouth and throat, rose and coppercolored spots appear on the body and often bubbes form in the groin, the scalp becomes diseased and the hair and eyebrows fall out, the whole surface of the face and body finally becoming covered with horrible sores. In the third stage the hard tissues, the bones and the ligaments are attacked, the actual frame-work of the hody putrifles, the whole human organism becomes a mass of corruption and the pitiful victim cries for death to end the awful sufferings.

Blood Poison can be absolutely and permanently cured by Botanic Blood Baim (B. B. B.) This wonderful medicine is guaranteed to cure the worst, longest standing and deepest seated cases. It cures where other medicines, doctors and hot spring treatments have utterly failed. It promptly heals all sores, stops all aches and pains, reduces all swellings, makes the blood pure and rich and completely changes the body into a clean, healthy condition. It is a purely vegetable compound, containing no mercury or other dangerous mineral. It is a peerless tonic, building up the system as it drives out the poison. Write the manufacturers for circulars and free medical advice.
